Crane and Rigging Management, Training, Development and Delivery, Expert Witness/Litigation Support

President Becket LLC. Career crane and rigging professional with hands on and policy experience. Train, test and certify crane operators, riggers and signalpersons for Army, Navy and civilian personnel. Develop and deliver safety and technical training to government and private interests around the world. Experienced consultant with 39 years in the crane and rigging industry, including over 20 years of policy experience. Expert witness with plaintiff and defense experience in crane and rigging accidents.

Charter crane and rigging training program manager at the U.S. Navy Crane Center. Responsible for defining the Navy's crane training program and developing the organization. Instituted and led the development of the Navy-wide training program for shore-based cranes and rigging at over 250 Navy activities worldwide.

- Developed the multi-million-dollar Navy-wide crane and rigging training program including 16 courses ranging from 4 to 40 hours each
- Provided oversight to up to 50 direct and contract trainers worldwide
- Selected to audit crane and rigging training for a special project at the Department of Energy Hanford nuclear waste disposal site
- Led the institution of the Crane Reliability Improvement Safety Program (Crisp) at Philadelphia Naval Shipyard
- Administered Train-the-Trainer, for subordinate and contract crane trainers
- Facilitated work-groups of developers, trainers and managers
- Led conversion of instructor-led to web-based training

Certifications (Current and Former)
